Vermont Library Notes.
The Aldrich public library in Barre has received a gift of 269 books from the library of the late S. N. Jackson and Winthrop P. Abbott of Greenfield, Mass., recently gave the Brookfield library 335 books. Mrs. Cornelia Bixby of Derby Line presented the Charleston library 162 volumes.

By the will of Myron Taylor of Washington, D. C., the Grafton library received \$100.
Mrs. Laura Ainsworth has added to her generosity to the Williamstown library by a gift of \$2,000. The library had 6,182 visitors during the year.

PARIS CASUALTIES 21.
In Sunday Night's Air Raid—Six Persons Were Killed.

Paris, Sept. 17.—(Havas.)—Six persons were killed and fifteen others injured in Sunday night's air raid over Paris, according to the lists given by the newspapers to-day.

One of the injured was a woman, the mother of six children. One of the German machines was brought down in the forest of Compiegne. The two other aviators fled pursued by gendarmes.

This makes two of the raiding machines accounted for by the French. A dispatch last night announced that one of the bombing planes was brought down by a shot from the artillery defense of Paris, falling in one of the northern suburbs. The bodies of an officer and two men were found in the wreckage.

John Corry of Jamaica, a Syrian, has pleaded guilty to stealing a pocketbook containing \$43 from his employer, Noah Daniels, and was sentenced to not less than a year nor more than two years in state's prison. He returned the pocket-book and \$40.

BLOOD AND NERVES

Best and Most Economical Treatment for
Combination of Ailments

Impure, impoverished, iron-lacking blood and weak, unsteady, under-nourished nerves form a combination of ailments that is most successfully treated with Hood's Sarsaparilla and Peptiron. Taken in conjunction, one before eating and the other after, these two great medicines supplement each other, and form the most economical treatment—Hood's Sarsaparilla for scrofula, rheumatism, catarrh, dyspepsia, loss of appetite, that tired feeling; Peptiron for anemia, tired nerves and exhaustion.

In cases where there is biliousness or constipation, Hood's Pills give prompt relief. Sold by all druggists.—Adv.

MUST REINSTATE ALL STRIKING EMPLOYEES

Remington Arms Co., Union Metallic Cartridge Co., Ordered By President
to Put Men to Work.

Washington, Sept. 18.—President Wilson has called upon the Remington Arms company, the Union Metallic Cartridge company, the Liberty Ordnance company and other manufacturers at Bridgeport, Conn., to reinstate all striking employees who seek to return to work in response to the president's demands. The president's order is a direct result of the fact that several thousand machinists and others employed in connection with war industries in Bridgeport, Conn., engaged in a strike to obtain further concessions because they were not satisfied with the decision rendered by the umpire appointed under the authority conferred upon the national war labor board. On the 13th instant, I communicated with the workmen engaged in the strike, demanding that they accept the decision of the arbitrator and return to work and stated the penalties which would be imposed if they refused to do so.

"The men at a meeting voted to return to work this morning, but I am informed by their representatives that the manufacturers refused to reinstate their former employees. In view of the fact that the workmen have so promptly complied with my directions, I must insist upon the reinstatement of all these men."

**MONOCLED NEGRO
BRINGS IN HUN MAJOR**
"I Say, Look Here What This Nigger Done Got," He Salutes a Red Cross Captain.

Paris, Sept. 18 (Correspondence of the Associated Press).—During the recent American advance out of Chateau Thierry, a Red Cross captain was looking about for suitable hospital sites when he met an American soldier marching along towards Chateau Thierry, following closely behind a German major. The negro had transferred his pack from his own back to the back of the German officer, and had also transferred the German major's monocle to his own eye. Thus equipped, the black warrior was parading triumphantly down the road. As he passed the Red Cross captain he called out:

"I say, look here what this nigger done got!"

**CAUGHT PRISONER
IN AIR BATTLE**
Captain Charles J. Biddle of Andalusia, Pa., Shot the Observer and Wounded the Pilot, Bringing Latter in.

American Headquarters in France, Sept. 17.—(Reuters.)—Captain Charles J. Biddle of Andalusia, Pa., who has five enemy airplanes to his credit, was the victor in a battle with a German two-seater plane at a distance of 18,000 feet, in the second day of the American advance. The observer in the German machine was shot through the head, but the pilot continued to fight until the synchronizing gear of his gun was disabled. He then attempted to escape, but was wounded. Captain Biddle preferred to capture the German, so he shepherded him toward the American lines and they made a perfect landing north of Nancy.

\$250,000 TERMINAL SUGGESTED.
Heavy Freight for Vermont Might Come Through Port of Burlington.

Burlington, Sept. 18.—A largely attended meeting was held in the Van Ness house Monday night of those who are interested in the deep waterways project for Vermont and the terminal at Whitehall are improved.

Robert M. McCauley, traffic expert, suggested that a terminal at Burlington should be constructed costing at least \$250,000. This would consist of a pier extending into the lake for a distance of 300 feet. He estimated that 60 per cent of the heavy freight for Vermont could be brought here by barges. This would include the coal supply.

Plans were made for getting a large number of Vermonters to attend the meeting of the New England waterways association at Boston, Sept. 24-27.

U. S. EMPLOYMENT
SERVICE DEVELOPED

Thirteen Community Labor
Boards Have Been
Established

Edward F. Elder, national field organizer of the United States employment service, has surveyed the state and to a representative of this paper Mr. Elder made the following statement relative to the service:

"Rapid progress has been made in the organization of the United States employment service in Vermont, due largely to the energy of Hon. Robert W. Simonds, federal state director. Thirteen community labor boards have been established, and a new office will soon be opened at Bennington. The community labor boards will assume an important position in the industrial life of the state and nation during the continuation of the war. Their first and most important function will be to classify the businesses in each community into essential and non-essential, and to issue orders which will bring about the release of men employed in non-essential industries and occupations so that they may find employment in essential enterprises primarily in the state of Vermont. Hearty co-operation from management and labor is looked for by the employment service. Non-essential industries must be prepared to make sacrifices; some which men engaged in them may make will be as costly as those which the men at the front are one and all prepared to make. To end the war speedily we must have men, men, men, for war work."

"Efforts are being made by the national government to lessen the burden upon manufacturers of non-essential by assisting them in the conversion of their plants, machinery and equipment for war work. Realizing the importance of this matter from my recent visit to the northern part of the state, I took the matter up, while in Washington, with officials of the resources and conversion section of the war industries board, and in Boston with Mr. Stuart W. Webb, regional advisor for eastern New England. I have also had a conference with Mr. J. Gray Kasey of Brattleboro, who is sub-regional chairman for Vermont, and shall co-operate with him so far as lies within my power."

"Farming, including dairy products, is essential, and the United States employment service will co-operate with existing agencies to supply the shortage of farm labor. Manufacturers and farmers should communicate their needs to the examiner in charge of the United States employment office in their district, and workmen seeking employment either within or without the state, skilled or unskilled, should enroll at such office."

"The secretary of labor of the national government expects to appoint a special representative of the United States employment service and the public service reserve in every town in Vermont. These positions will give an opportunity for patriotic public service of considerable value. While they carry no salary, it is expected that they will appeal strongly to loyal, live men who want to be of service to their country. Appointments will be made upon the recommendation of the federal state director, Hon. Robert W. Simonds, Montpelier, Vt., to whom all communications should be addressed."

**ORANGE COUNTY
FARM BUREAU**
Notes for Week Ending Sept. 14.

Many farmers contemplate reducing their poultry flocks this coming winter because of high price of feed. In face of the reduced cold storage holdings and a higher price for eggs, there is a question about the wisdom of such a course. There is no question, however, but what the average farmer is feeding many hens which do not lay enough to pay for their keep. These hens should be sold from the flock before they cause further loss. Culling out the unprofitable hen is one of the ways we can help both ourselves and the country. To help poultry keepers to do this intelligently, a series of culling demonstrations have been arranged for next week from Monday to Saturday in different parts of the county. Below is given a partial schedule of the local notice will be given of the rest. These demonstrations will be given by A. L. Smith, poultry specialist from the U. S. department of agriculture. The method used is simple and has been proven an effective one. If at all interested in profitable poultry keeping, try to attend one of these demonstrations: Monday, Sept. 23, 2-30 p. m., George C. Flint, Brattleboro; Tuesday, Sept. 24, 9-30 a. m., H. O. Boyd, East Randolph; Tuesday, Sept. 24, 2 p. m., Tunbridge; Wednesday, Sept. 25, 9-30 a. m., Charles Titus, Chelsea; Wednesday, Sept. 25, 2 p. m., John Dow, Williamstown; Thursday, Sept. 26, 9-30 a. m., P. D. W. Hildreth, South Newbury; Thursday, Sept. 26, 2 p. m., Leighton, Newbury; Friday, Sept. 27, 9-30 a. m., R. H. Vaughan, Bradford; Friday, Sept. 27, 2 p. m., Bradford; Saturday, Sept. 28, 9 a. m., Fred McDuffie, Waits River; Saturday, Sept. 28, 1-30 p. m., Reuben Lord, Orange.

Rutland Man Dies in Service.
Rutland, Sept. 18.—Mrs. Louis LaFrance of this city has received word of the death of her son, Pvt. Nelson E. LaFrance, Aug. 4, in France. It is supposed that he died of natural causes. Besides his mother, he leaves a wife, three brothers and two sisters.

Pvt. LaFrance was born in Rutland 22 years ago, was employed as a pressman by the Rutland News for a time and at the time of his enlistment was working for the Underwood Typewriter company in Hartford, Conn.

Deserter Gave Himself Up.
Swanton, Sept. 18.—Evan Watts reported at the local customs house recently that he deserted from Fort Ethan Allen a year ago last August and that after working "all over" the country he wanted to give himself up.

The commandant at the post was got in touch with over the telephone and an officer arrived and took the young man back to Fort Ethan Allen.

AMERICANS HAVE STRONG NERVES

Nervousness and Nerve
Troubles on the Decline

"Nothing wrong but your nerves," is a saying that is fast dying out in this country. While nerve trouble is no organic disease, one of our leading nerve specialists remarked: "A man or woman might better break a leg than have a shattered nervous system."

Overwork and worry drains the nerve cells of their reserve strength and food, and then follows the sleepless night, indigestion, poor appetite, impure blood and general nervous breakdown.

The thing to do in such cases no longer troubles doctors and their patients, who know from their own experience the value of Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system, because Phosphated Iron gives the tired, hungry, worn-out nerve cells phosphates and iron, in a form easily and quickly absorbed; as one happy user said: "You can almost feel it taking hold of the nerves and blood, after a short time you feel like a new person; life seems a pleasure and worth living once again."

In every section where Phosphated Iron has been used there has been a big decrease of nerve troubles, and it will prove a welcome relief to any sufferer. You can bank on it for results—it's pure. To insure physicians and their patients getting the genuine Phosphated Iron, we have put up in capsules only; do not take pills or tablets. Insist on capsules.

HOGS MUCH HIGHER.
New Record Made at Brighton Market—
Fancy Calves Firmer.

Brighton, Mass., Sept. 18.—Hogs made a new high record at the Brighton stockyards yesterday morning, both live and dressed being materially higher than for the week ago. Calves were also firmer for fancy lots, but all kinds of beef stock was easier and slow of sale.

Best cattle were held at 15c, but buyers were slow to bid over 13@14c, though possibly a fraction more was obtained for an exceptional pair. Buyers said that the weakness was more pronounced in the medium and poor stuff than for the fancy grade. Average tops sold at 9@9 1/2c, though occasionally there was a fancy edge that brought more. Good cattle sold at 7 1/2@8 1/2c, and light cattle at 6@7c.

Some shippers were talking 11@12c for fancy beef cows, but 9@10c appears to be about as high as buyers were willing to go. Some so-called fancy cows sold at 8@9c, and drovers were rather blue. Average tops sold at 8@8 1/2c, good cows at 7@7 1/2c, ordinary cows at 6@6 1/2c, and canner cows at 5@5 1/2c. An unusual number of small bulls were in the market yesterday and being in fair condition brought relatively good prices. As they run these young bulls sold at 7@7 1/2c, but occasionally one brought up to 9c or better. Bologna bulls sold at 6 1/2@6 3/4c.

Calves rallied under light receipts of fancy stock, and small lots sold as high as 16 1/2c, with some talking 17c. Around 16@16 1/2c appears to have been about the top for small lots of fancy calves, as noted in actual sales, bunch lots selling at 13@16c, fair lots at 12@14c and grassers and drinkers at 8@10c.

Sheep and lambs continue to come forward with some freedom, but prices are well maintained, the range of prices being about 15@16c for lambs and 8@10c for sheep.

Dressed hogs have again been marked up, and have made a record at 25 1/2c. Buyers of live hogs have been a little cautious, and consequently yesterday's figures at Brighton were rather below the parity of the dressed quotation. Top price of the day was 20.80c.
